females

Smoking inputs

Initiation probabilities

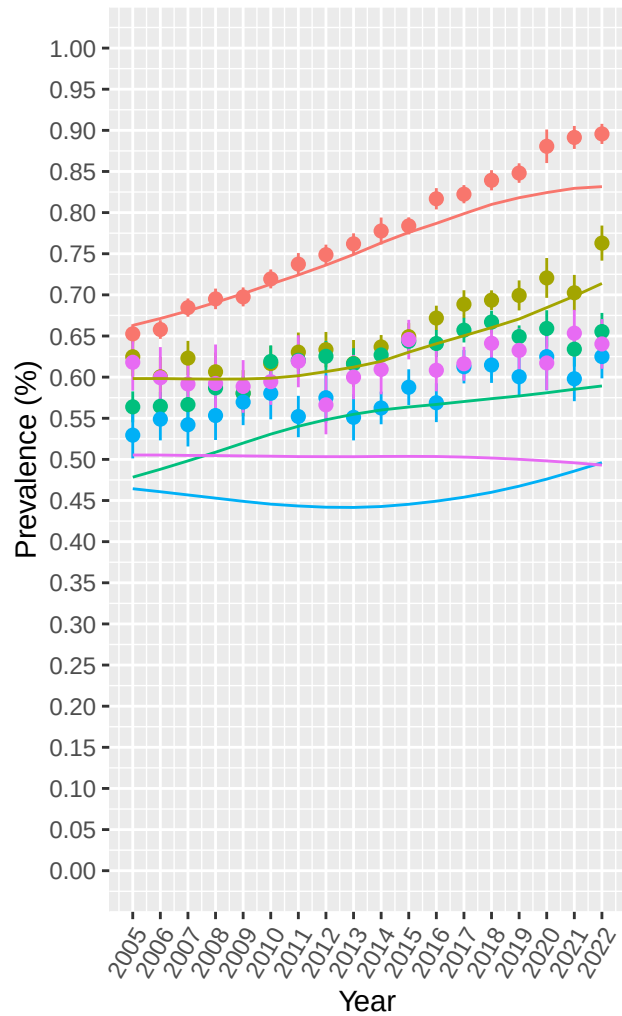

Cessation probabilities

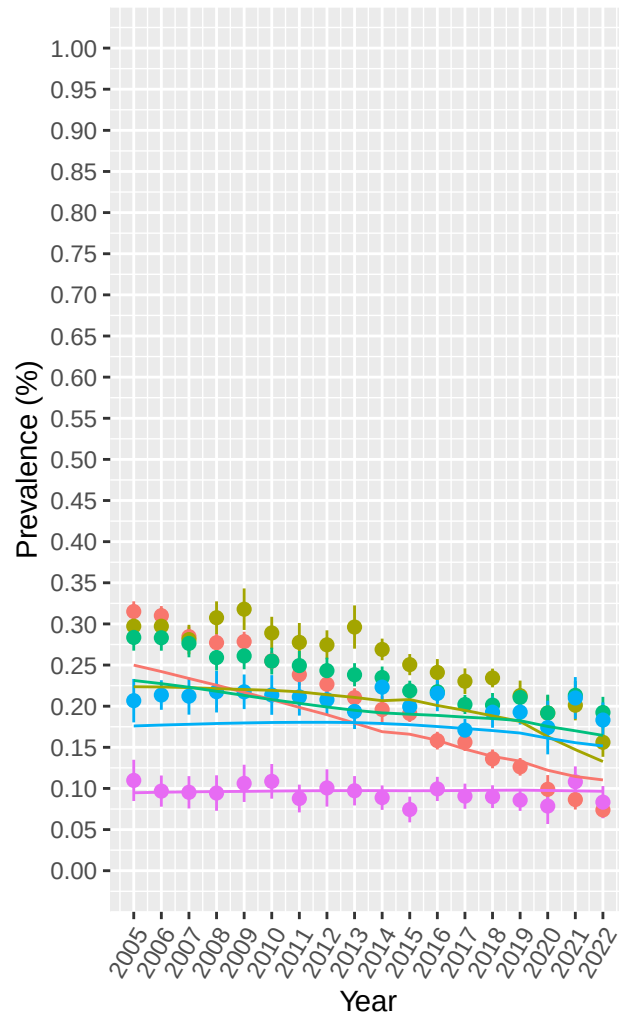

inputs calibrated CISNET rr.ND.CD

Smoking distribution

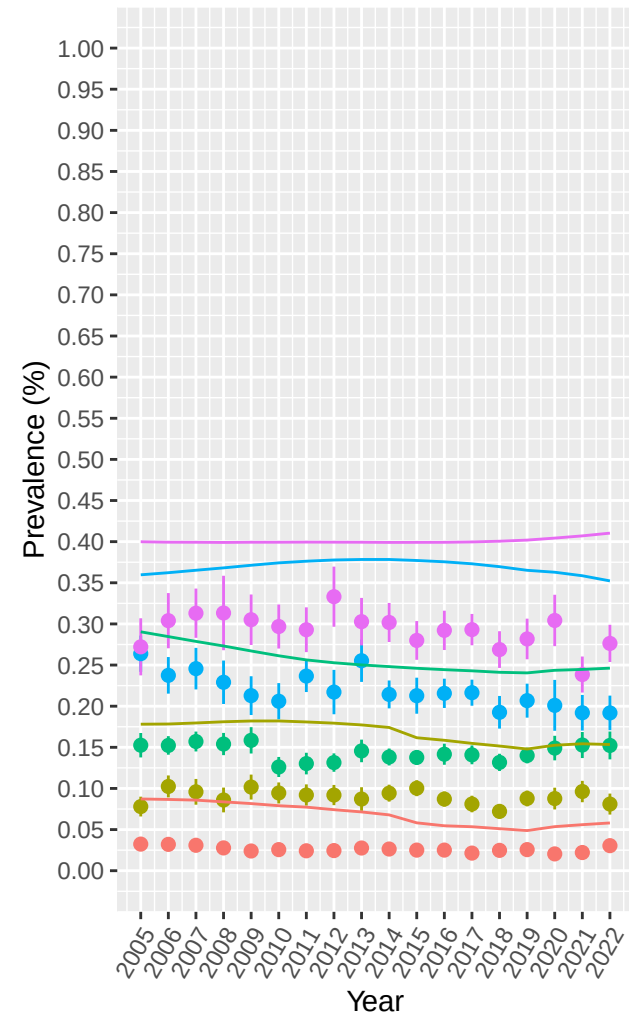

Never smokers – females

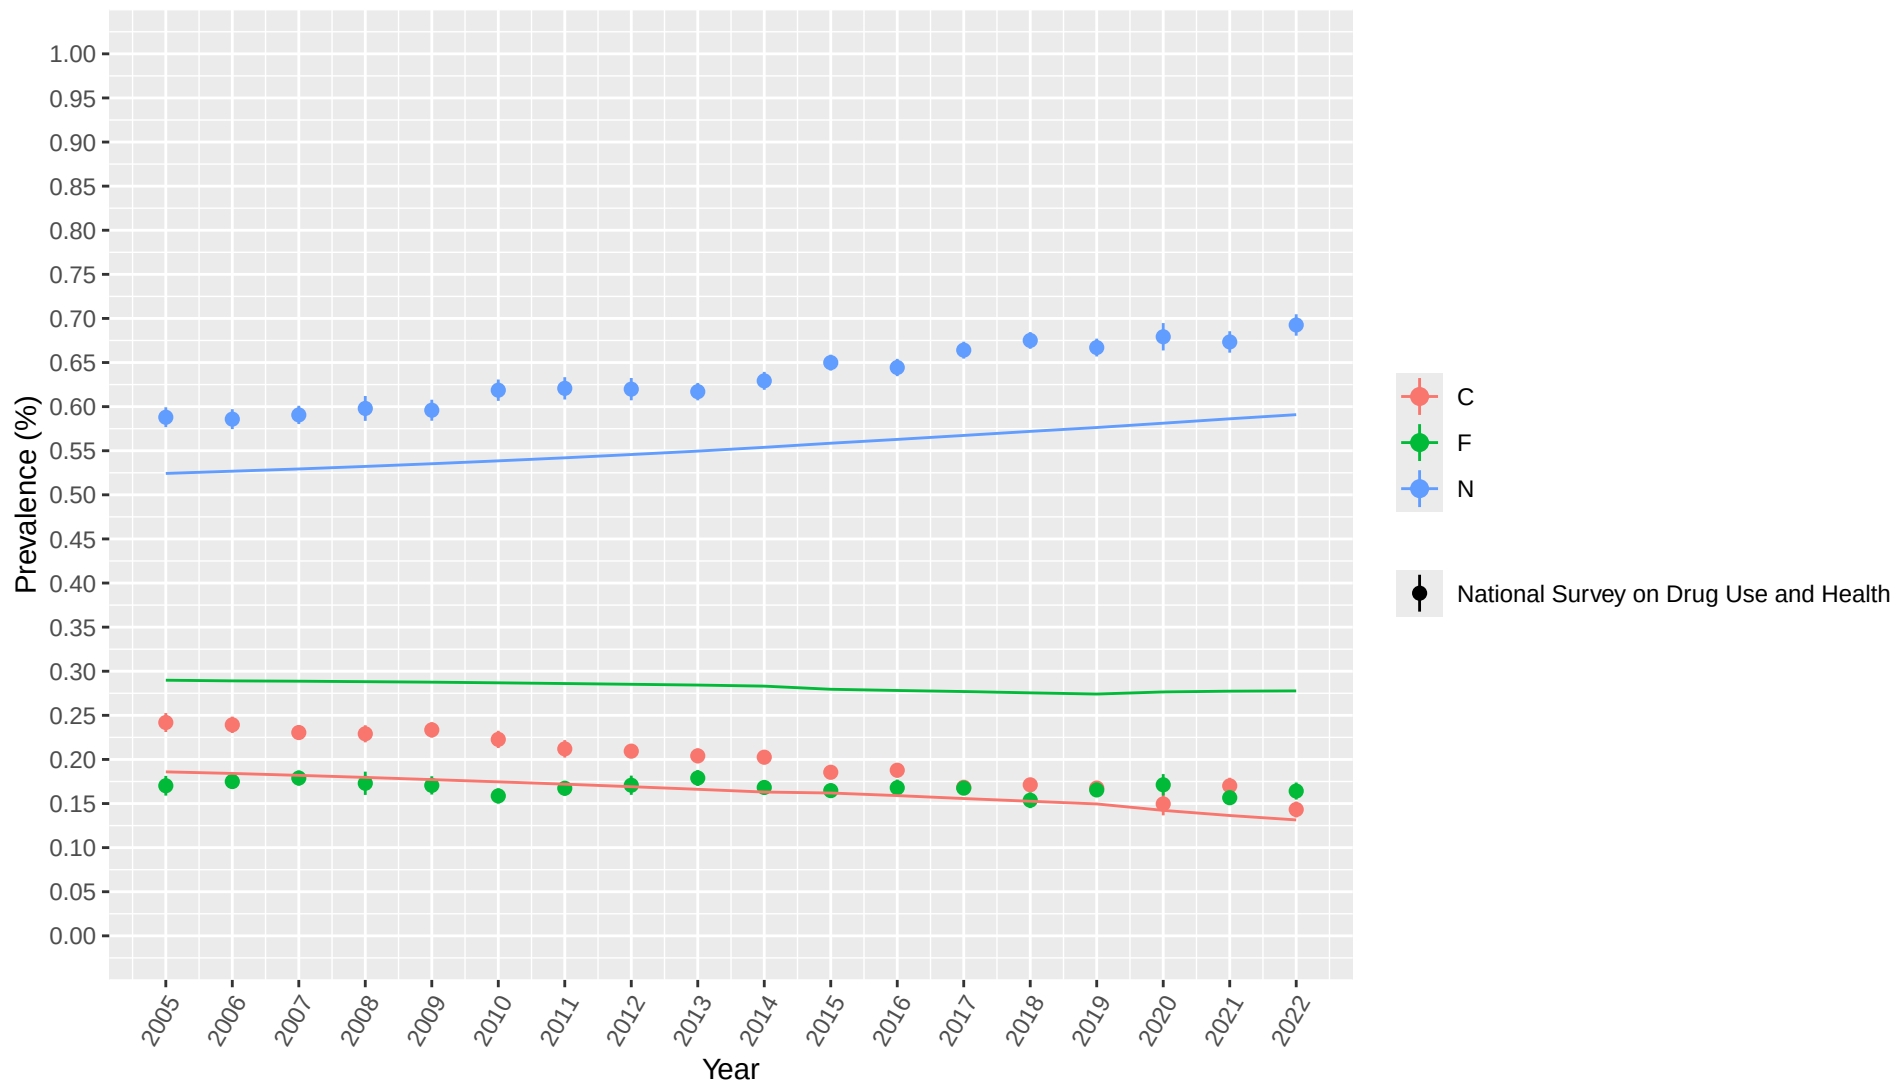

Current smokers – females

Former smokers – females

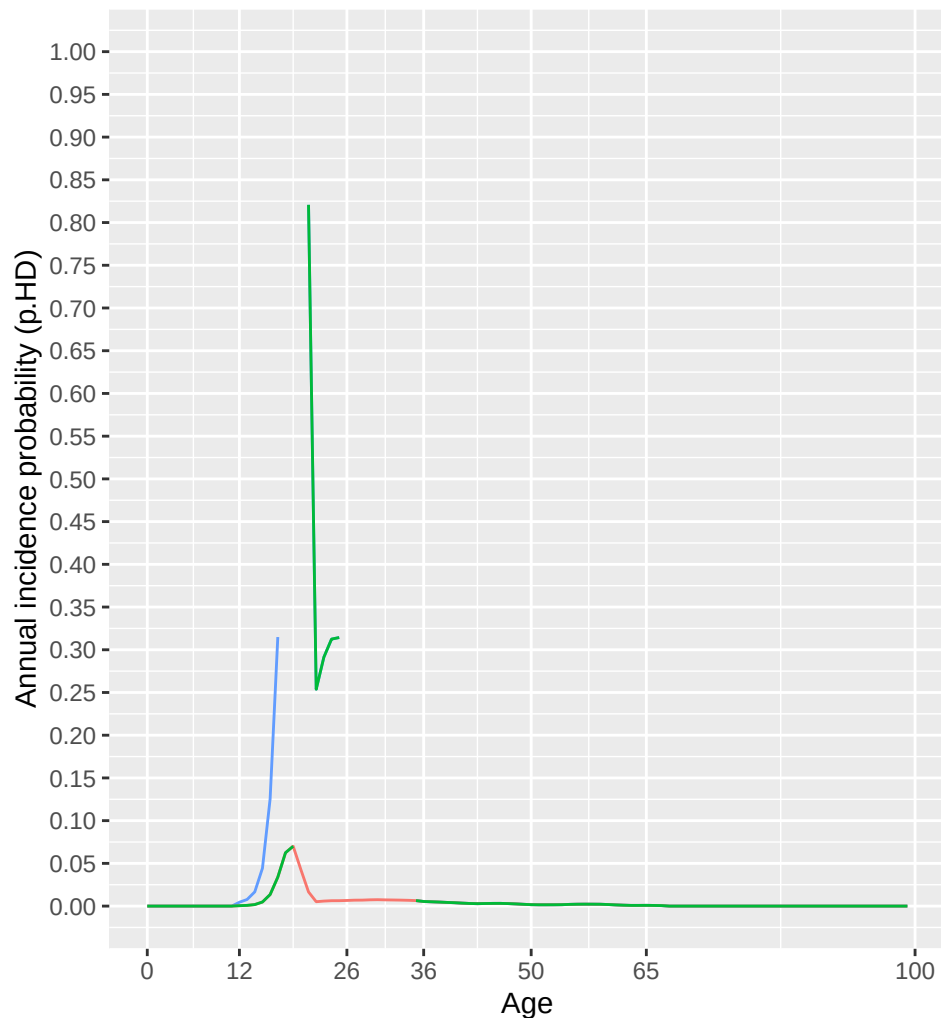

Smoking distribution – females ages 18–99

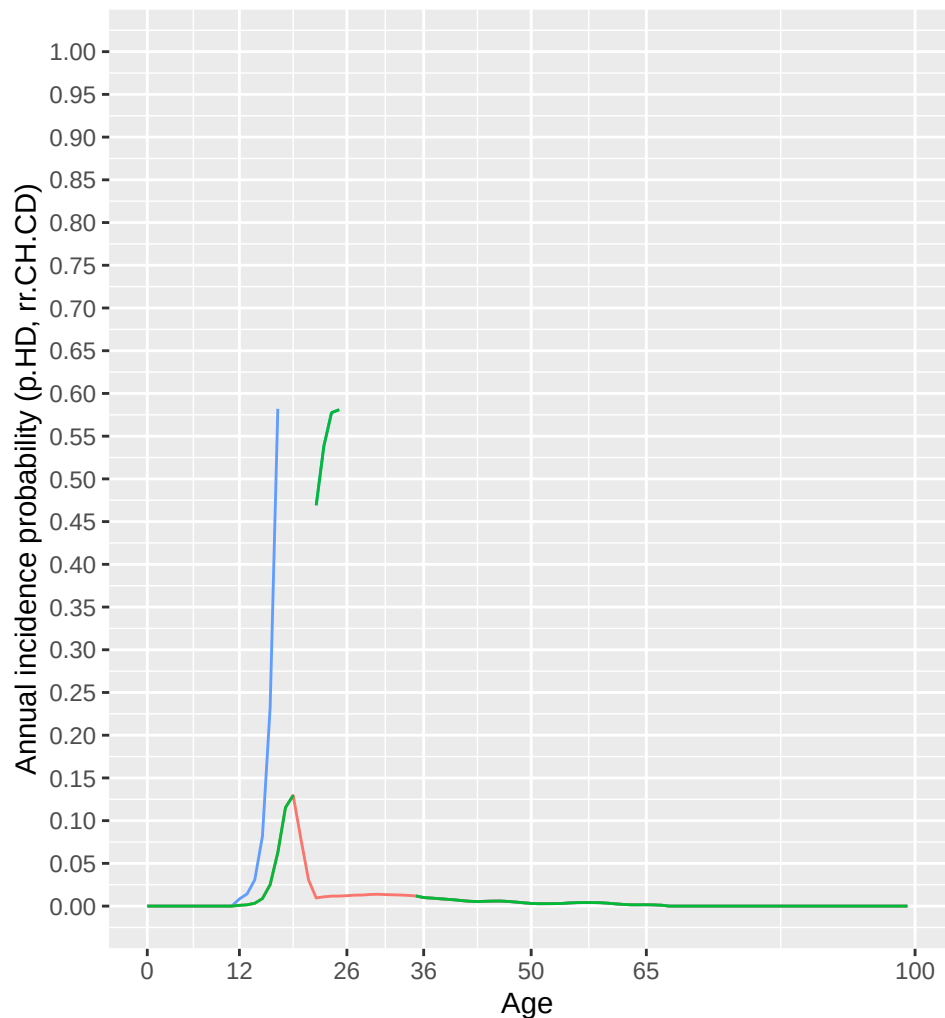

Incidence by smoking status

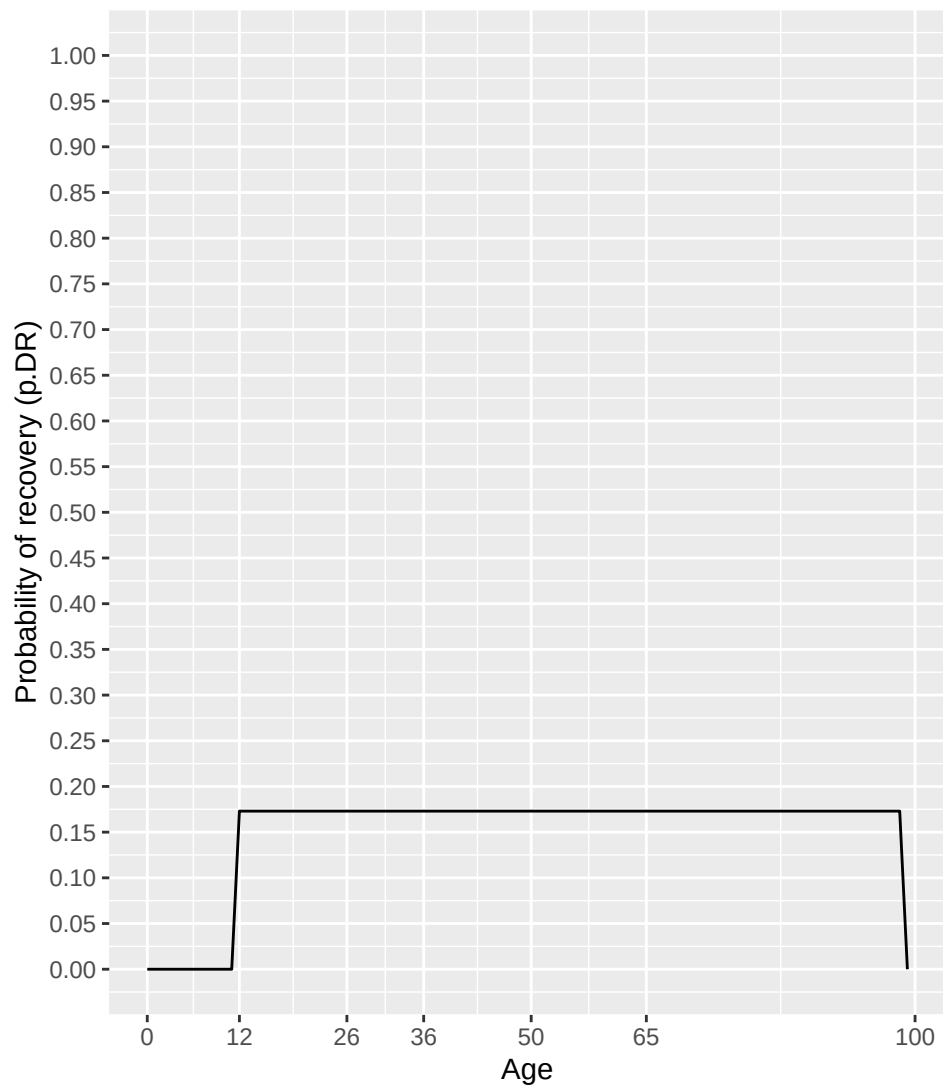

Incidence, calibrated estimates

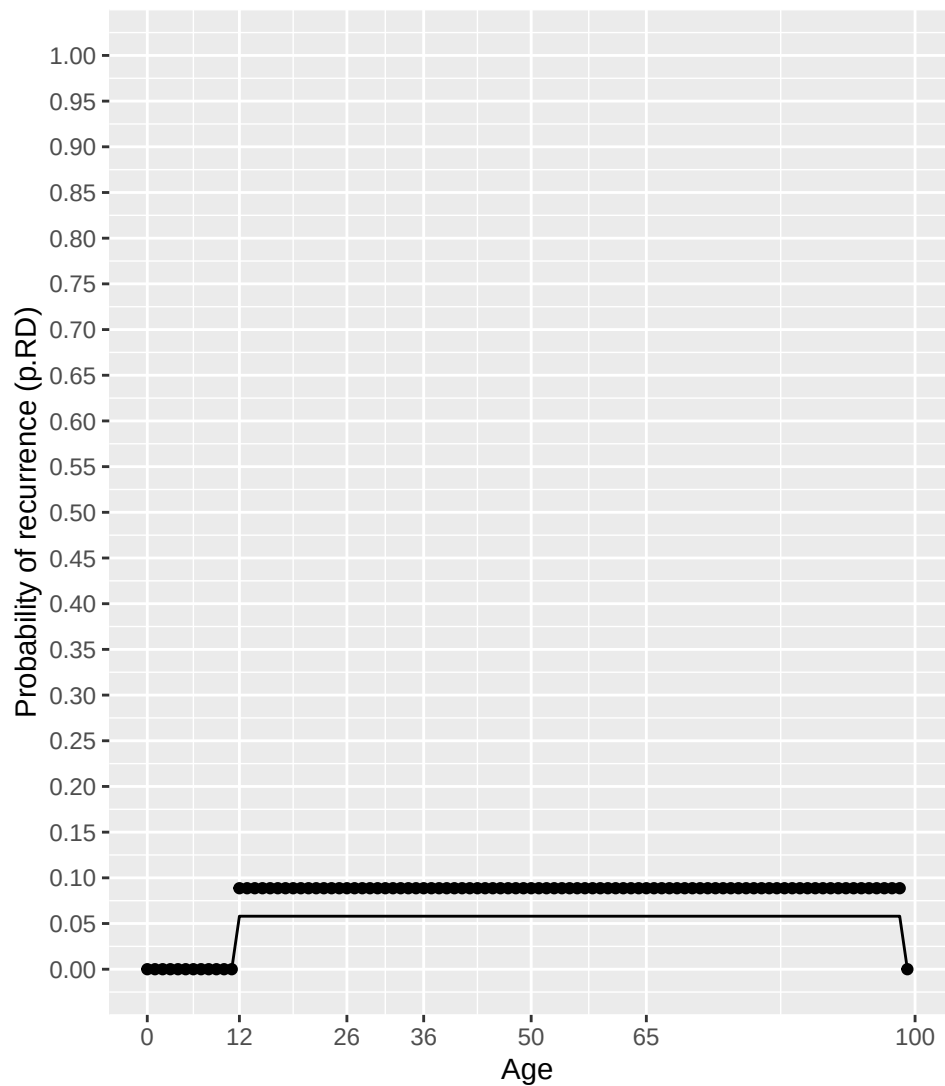

Incidence among current smokers, rr.CH.CD*

Recovery, calibrated estimates, p.DR

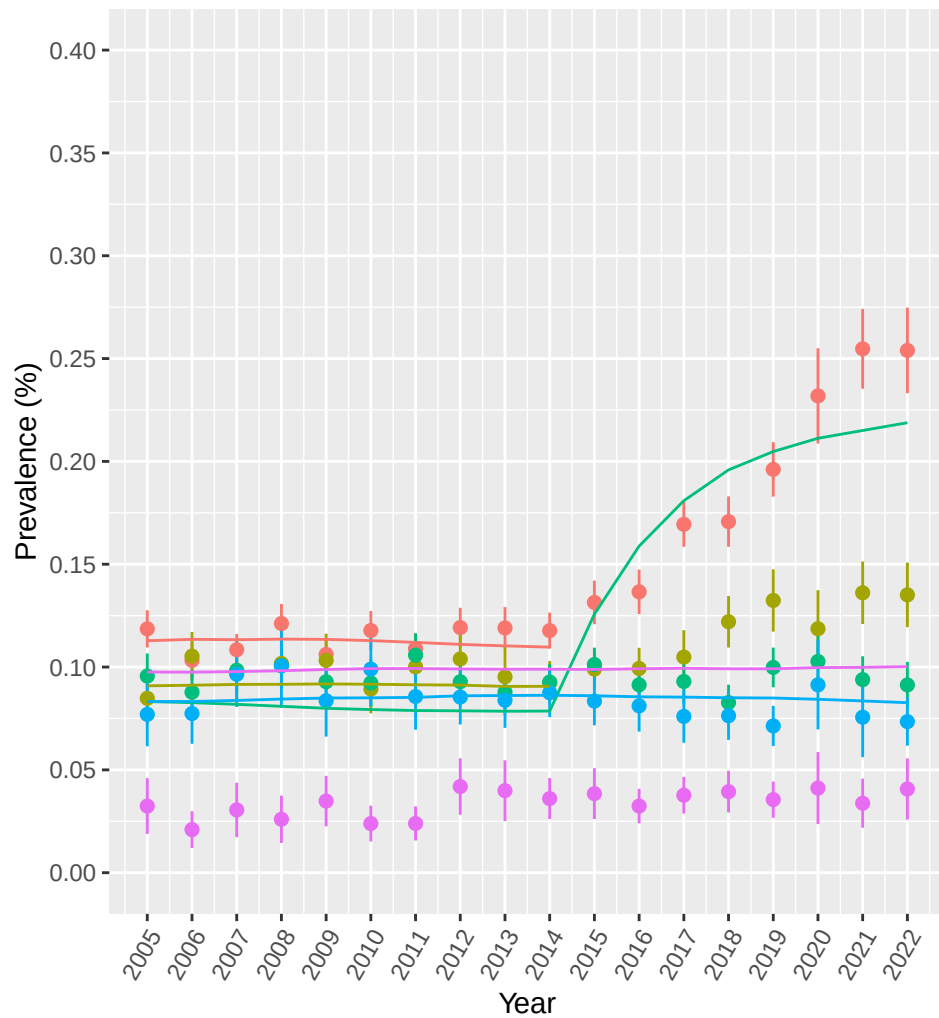

Recurrence, calibrated estimates, rr.CR.CD

MDE

Current MDE – females

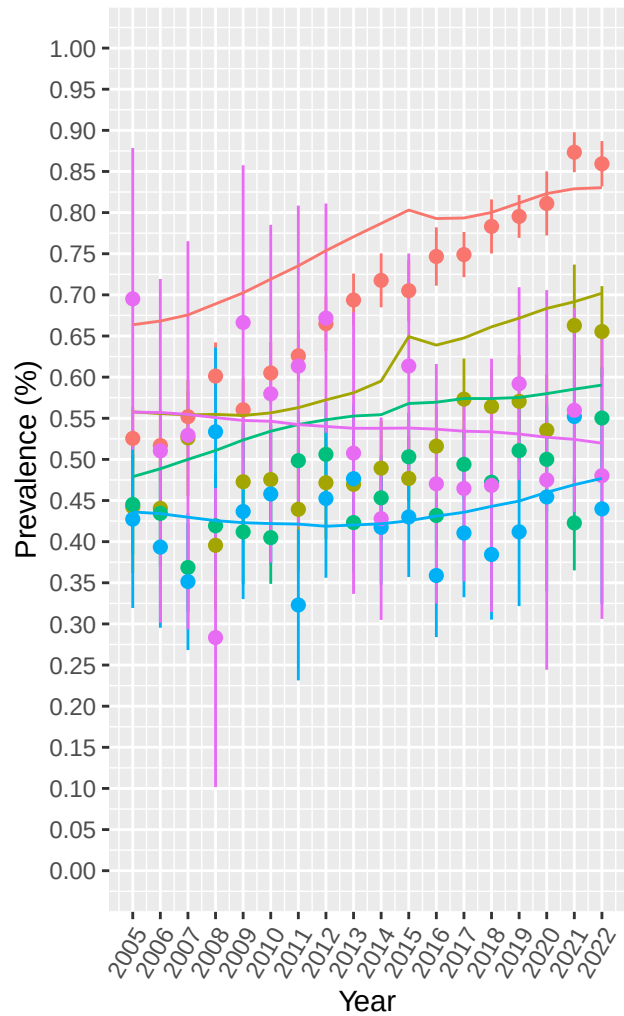

MDE distribution – females ages 18–99

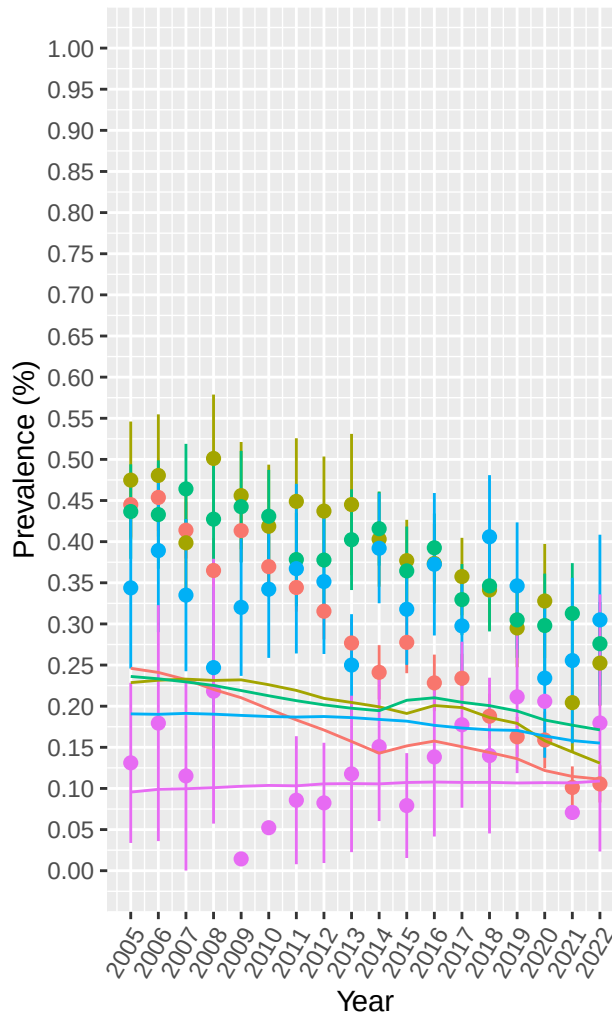

Smoking distribution among people with depression

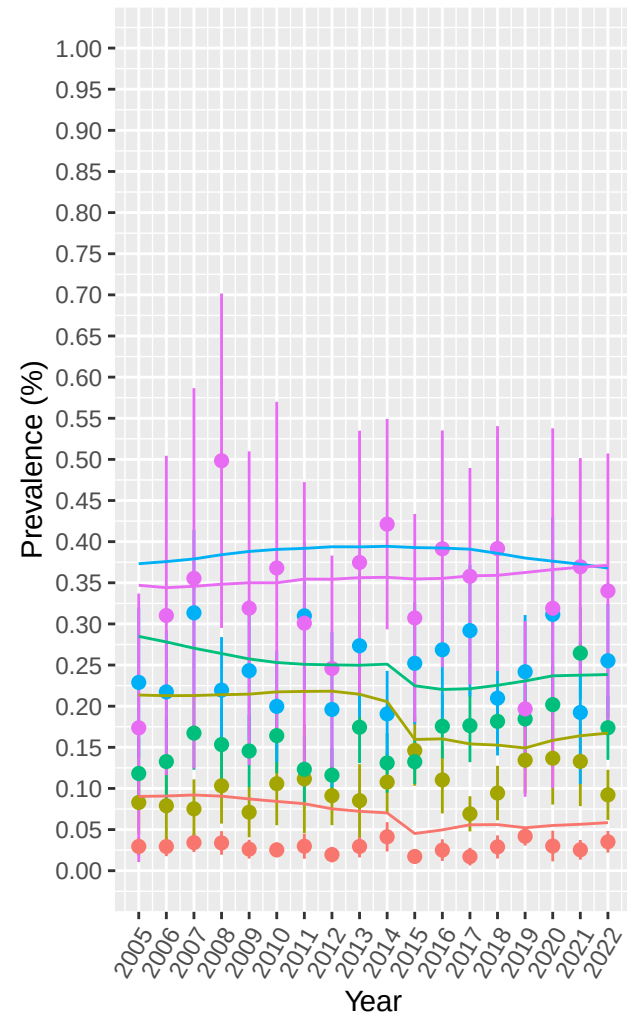

Never smokers – deppop, females

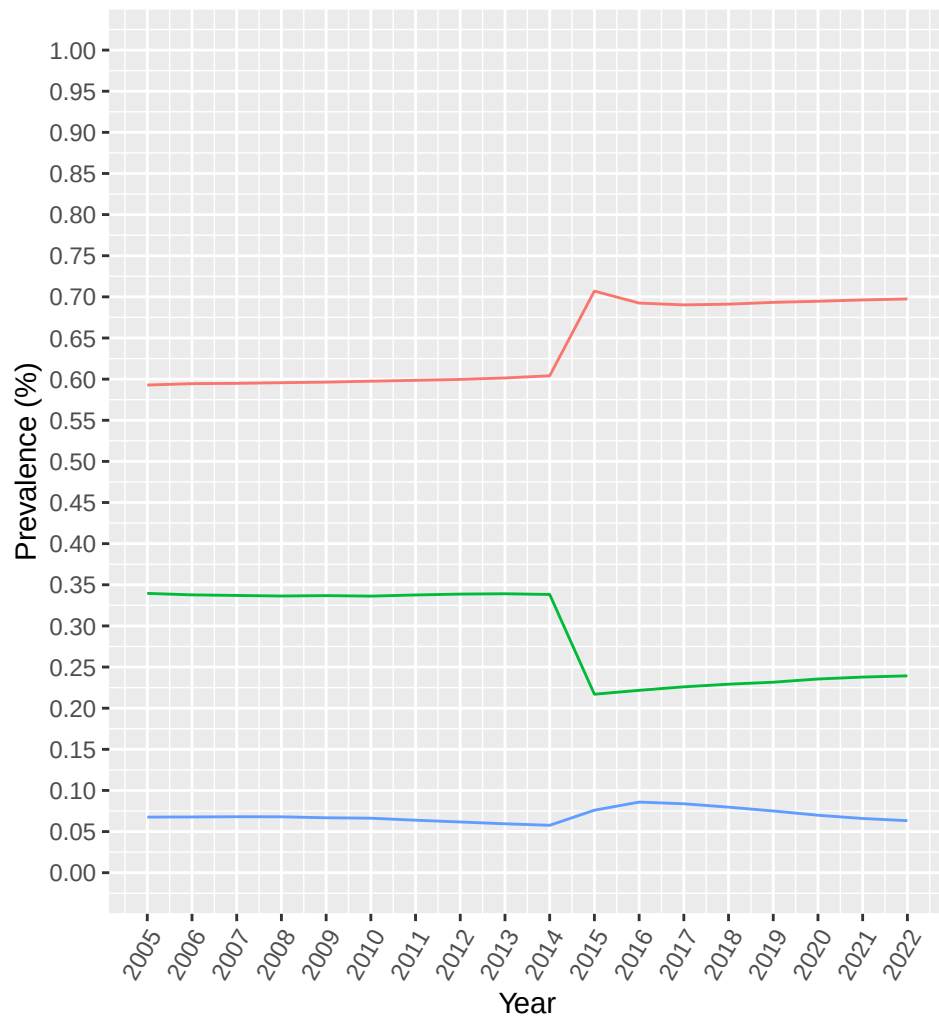

Current smokers – deppop, females

Former smokers – deppop, females

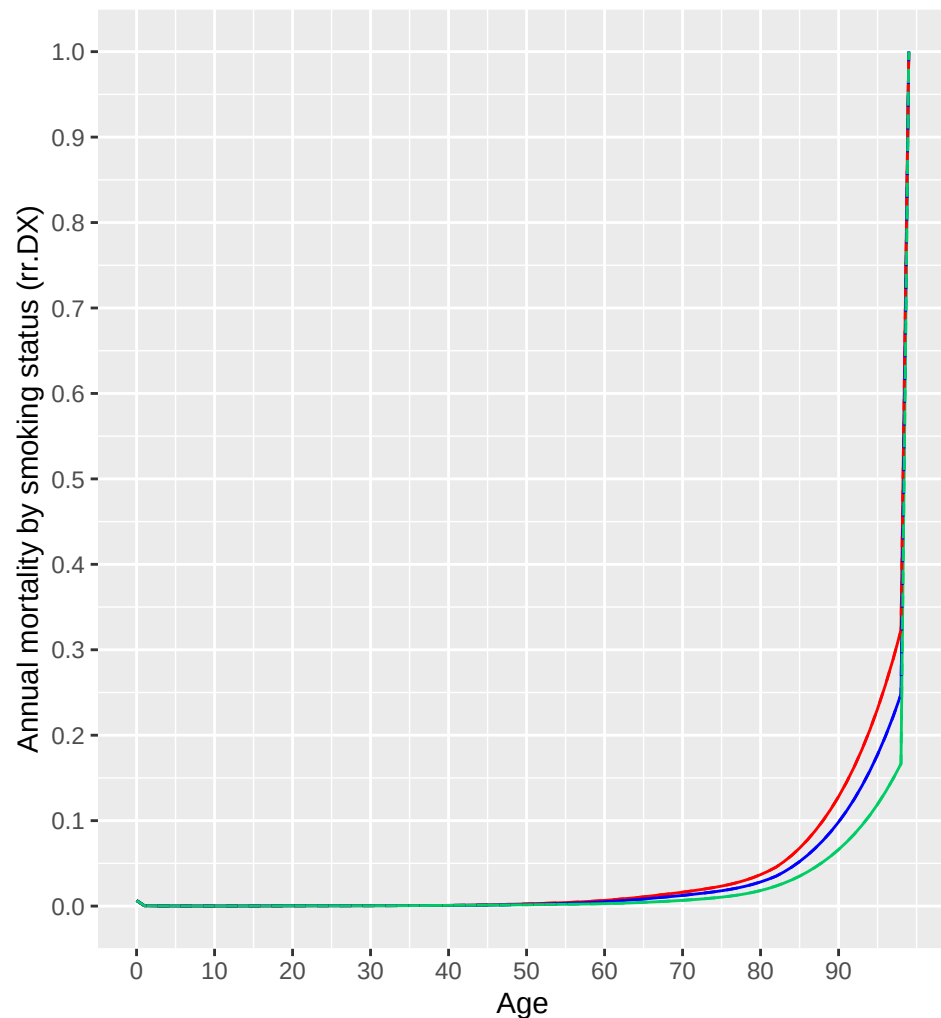

Vaping distribution – females ages 18–99

NCF

Mortality probabilities by smoking and MDE status
